

treehouse TH 6 G2

Treehouse's largest 6-person acoustic booth serves as a sound-absorbing conference room. Larger space, customized furnishings and acoustic insulation responsible for the quality of the booth create a comfortable place for meetings, effective work and creative brainstorming.

Return to child's creativity

The Treehouse was created to feel the atmosphere like in the child's play, warm, cosy, safe and at the same time extremely functional. Its form resembles the tree houses, where the most creative ideas are born. The installed casters make it, despite its size, easy to move, so that it is exactly where you need it.

Perfect for meetings

The Treehouse offers many possibilities, it can be combined with another one during the improvised meetings while creating a group work atmosphere or stand apart to provide the user with a sense of privacy that facilitates contemplation and focus. The entire concept of the Treehouse, its consistency and harmony will not leave anyone indifferent.

The man behind this collection is **Dymitr Malcew**, a Polish designer with international experience. In his works, he breaks down the boundaries between a workplace and a cosy home are.

TH 6 G2 / Technical data
